LIVELY COURT ROW OPENS IN DETROIT

DETROIT, July 30 (INS)—A lively public court battle was opened Friday as relatives of the late Frank Grosjean, Detroit real estate dealer, sought to break his will leaving the bulk of a $250,000 estate to his wife of nine months, his former housekeeper.

Three nieces of the dead man charge Mrs. Emma Grosjean, 51, influenced him to write a new will naming her executrix and chief beneficiary, invalidating a previous will.

Mrs. Grosjean first came to work for Grosjean in 1932 at a salary of $5 a week. They were married at Adrian, Mich., July 31, 1935.

A new will was drawn three weeks before his death, Friday, April 21 at the age of 58.

AUTO PRODUCTION CONTINUES SLUMP

Week's Output Falls Below 90,000 Unit Mark for First Time This Year

DETROIT, July 30 (INS)—Automobile production continued to slump Friday as production for the week fell below the 90,000 unit mark for the first time in months.

The seasonal decline came despite the continued fast production pace of General Motors, Chrysler, Nash-Lafayette and Willys. Slow down of the Ford, Packard and Studebaker plants and curtailed production in other companies brought the decline.

The automotive Daily News estimated production for the week will slump to 88,738 units, far less than the 94,867 units produced during the corresponding week last year.

Production for the month, too, fell below last year, estimated at 342,321 monthly production of 442,321 units as compared to the 451,474 of last year.

Production was expected to continue under the 90,000 unit mark until the Ford, Packard and Studebaker plants reopen early next month.

The annual inventory shut down of G-M and Chrysler plants was performed indefinitely because of the heavy backlog of orders piled up during the recent sit-downs.

General Motors plants continued to produce 30,000 units a week, with Corvettes maintaining its 6,000-a-day pace to lead all individual plants with 30,000 units during the week.

Pontiac, slowed down by mechanical troubles last week, was to come up to 1,500 this week.

Buick production was tapered off from 9,232 of last week to 4,892.

Chrysler also held its production pace at 24,000 a week, with Plymouth leading with a weekly 11,000-unit pace.

LEADER OF GLASS UNION QUITS POST

McCabe Resigns, Ending Six-Month Fight of Executive Board to Oust Him

PITTSBURGH, July 30 (AP) — Geo. W. McCabe resigned Friday as president of the Federation of Flat Glass Workers, ending a six-month fight of the union's executive board to oust him.

McCabe's resignation was announced by a three-man arbitration board appointed by John L. Lewis, CIO chairman, at the request of the federation's convention last week.

An administrator selected by Lewis will serve the remainder of McCabe's term, expiring next July, unless Lewis decides the election of a successor is advisable. The administrator will have the powers, the arbiters said, of the president.

Twenty-seven locals suspended John Zh and barred from the convention will be reinstated. The executive board and McCabe agreed to withdraw all court suits pending the proposed register.

All parties agree to regard this settlement as definitely terminating the controversy and to cooperate wholeheartedly with the CIO administrator and with each other for the restoration of unity in the union and the upbuilding of the Jay federation," read the agreement.

The executive board sought McCabe's removal from the CIO affiliated union on grounds that he had misused funds of the federation's magazine, which he claimed as his property. The magazine later was transferred to the union.

A dispute over the attempted outlet split the federation's convention into two factions. McCabe's followers went into a "rump" session and for a time threatened to form a new union. Peace was attained in the agreement to submit the controversy to arbitration.

Arbiters were John Brophy, CIO director; Leo de Cocq of the American Newspaper guild, and C. S. Zimmerman of the Ladies' International Garment Workers union.

Gland Operation Saves Life of 'Shrinking Man'

MINNEAPOLIS, July 30 (AP)—Hans Nelson, who shrank 10 inches in height in five years, Tuesday credited a gland operation with saving his life and giving him on top of the world.

He's gaining strength, he said, eating "anything" taking automobile trips and enjoying life. He's pleased also to know his case has aided others afflicted.

Two years ago surgeons removed half of his parathyroid glands in an effort to stop the de-calcification of his bones that reduced his stature. He had been shrinking for 13 years until he was a stooped man of five feet.

Nelson still is five feet tall, but said he was growing stronger "every day" and looking forward to the time when he will be even more active.

"As far as my life was concerned," Nelson said of his operation, "I figured I was gone. I made a try through and I'm glad of it. This has been the most wonderful summer since I have been sick."

He said he has driven 200 and 300-mile automobile trips this summer. His back still is too weak to support his body in strenuous work, but he is operating with saving on life and golfing him on top of the world."
